

3UR Free

Get your **next month's**
product **FREE!**

What is 3UR Free?

Nerium International makes it easy for you to qualify to receive your monthly product for free through our innovative 3UR Free program!

How do you qualify?

It's easy! If you have at least three Preferred Customers in one calendar month whose product order in the Auto-Delivery Order (ADO) program totals or exceeds the amount of your Auto-Delivery Order, your next month's order is FREE!

What are the rules and regulations?

All Brand Partners can participate in the 3UR Free program* and qualify to receive monthly product for free! In order to participate, the following qualifications must be met:

1. Must have an active ADO order of at least 80 QV.
2. You must have at least three Preferred Customers, each with fully paid ADOs being shipped each calendar month. The total of your Preferred Customers' orders must be at least \$175.
3. You must also have a qualifying Auto-Delivery Order on which earned credits will be applied next month.

For your order to be free, the total price of all your personally sponsored Preferred Customers' orders must be three times the price of your order. For example, if the total price of all your personally sponsored Preferred Customers' orders is \$270, then you can receive an Auto-Delivery order with product equal to or less than \$90 for free (you pay shipping and handling only). This is not a cash discount. The maximum 3UR Free credit applied will not exceed \$270 U.S. dollars. Brand Partners can earn 3UR FREE credits on all products and apply them toward any products. Credits do not apply to shipping, handling, and applicable tax. Cross-country 3UR Free credits may vary depending on the currency exchange.

*Applicable to all qualifying products. Does not include services and/or subscriptions.
